

Metro Systems Romania's special development program - Digital Coding Incubator

Digital Readiness stands for the capability of METRO to deliver outstanding digital solutions on a global scale instantaneously.

We are building a technical development program open to those software developers who have already experience developing applications in Java or Javascript frameworks and who want to further develop their career with the newest cloud development technology stacks. After 3 to 6 months of learning and working in Digital Readiness products, the participants will take opportunities in our company's most exciting development projects.

What you have...

- Have +2 years hands-on experience in disparate technologies, typically ranging from front-end user interfaces through to back-end systems and all points in between
- Have a systematic problem solving approach, coupled with a strong sense of ownership and drive;
- Desire to work in an Agile, fast paced environment with a high focus on finding the best solutions for our customers

What you will learn...

- Front-end and back-end development experience using Java and various JavaScript frameworks;
- NoSQL datastores such as Cassandra and ElasticSearch DB – Search engine
- Building REST APIs, using JSON and Swagger
- Experience with microservices and Docker container technology managed with Kubernetes

- CI/CD and tools such as Jenkins, Git, Gradle

What we offer:

- Opportunity to learn and work with a variety of technologies
- Career programs
- Multicultural, Agile environment that encourages new ideas and innovation
- Flexible working hours
- Lunch tickets
- Medical and life insurance
- Private pension
- Fitness centers discounts, sports activities and other company events
- Good transport connections and free parking
- Relaxation area (ping pong, foosball, massage)
- Free Bookster.ro account
- And...fresh orange juice, good coffee, fresh fruits.

Registrations opened until 10th of April! --> <https://goo.gl/ZE8AGA>
